INFLATABLE PACKAGING FOR FRAGILE GOODS

**EUROPE'S ORIGINAL INFLATABLES DISTRIBUTOR**

# WHY AIRPACK?

- ✓ We can help reduce your breakages to ZERO.
- ✓ We're environmentally friendly. All our products are fully recyclable.
- ✓ Saves up to 90% storage space- All bags come flat until inflated.
- ✓ Very quick and easy to use.
- ✓ They can speed up your packaging processes.
- ✓ Samples available on request.

## ABOUT US

### WE ARE EUROPE'S ORIGINAL, MULTI-CHAMBER INFLATABLE PACKAGING DISTRIBUTOR.

We have been selling our inflatable packaging since 2008 and believe we have the widest standard range in Europe. We're not just a generalist packaging distributor, we are specialists in inflatable packaging and our range is constantly being expanded and updated.

Our bags are manufactured to the highest standards, offering maximum protection for fragile items.

Bespoke bags can be made to order, subject to minimum order quantities.

#### DELIVERY

Most standard bags are kept in stock making **NEXT DAY DELIVERY** possible on most orders. UK Mainland - FREE delivery on all orders over £125 ex VAT. Europe - Prices available on request.

## HOW TO USE OUR BAGS - 3 EASY STEPS

Our products are quick and easy to use with no mess or folding.

To inflate AirPack Systems bags you will need an air line already installed with a regulator or an air compressor. We can supply you with an air compressor, please see page 8.

AirPack Systems worked closely with ASDA to design end cap style bags to fully protect mirrors in transit. Since the introduction of the bags damages and returns are down to zero.

## WHAT OUR CUSTOMERS SAY

“Great company, great product. A reliable product which protects our fragile stock whilst in transit, great staff who provide excellent service and support. What more can you ask for?”

# Discover the benefits of Green-Paq...

## OXO BIODEGRADABLE

Green-Paq inflatable bags are made with 95% OXO biodegradable plastic meaning when disposed of in landfill they will break down over time and will be converted into CO<sub>2</sub>, H<sub>2</sub>O and biomass as the final remnant. A small proportion of the bag material is made from nylon to improve performance, which is not biodegradable.

Independent tests concluded that the material fulfils all the requirements of SPCR 141 appendix 4, which is in accordance with ASTM D6954.

## LOW CARBON FOOTPRINT

Flat packed Green-Paq bags take up much less space and significantly less vehicles are required to transport them, all helping to reduce CO<sub>2</sub> emissions and carbon footprint.

## RECYCLABLE

Green-Paq bags can also be fully recycled in standard recycling facilities if they are not disposed of to biodegrade in landfill.

## SPACE SAVING

Flat packed Green-Paq bags take up much less storage space than traditional paper and board-based packaging.

## PROTECTION

Inflatable plastic packaging offers superior product protection with customers achieving rates as low as 0.04% breakages for shipments over a 12 month period.

## EASILY INFLATED – READY TO USE IN SECONDS

Inflate via a single nozzle using a standard compressor or hand pump, which passes air through a series of patented self-sealing valves into independent air chambers which inflate in seconds.

# 98% air, 2% biodegradable

## GREEN-PAQ

### SINGLE BIOPACK

Deflated dimensions 21cm x 41.5cm

### DOUBLE BIOPACK

Deflated dimensions 48cm x 41.5cm

### TREBLE BIOPACK

Deflated dimensions 72cm x 41.5cm

### SIX BIOPACK

2 x Bio Treble bag

### TWELVE BIOPACK

4 x Bio Treble bottle bags

## OXO BIODEGRADABLE

Green-Paq inflatable bags are made with 95% OXO biodegradable plastic, meaning it starts to degrade once disposed in landfill. The bags undergo a two-stage degradation process. The first is Oxidative Degradation enhanced by a catalytic reaction. Once this has happened the second part is biodegradation in soil or a bio-active composting environment. The OXO biodegradable material is converted into CO<sub>2</sub> H<sub>2</sub>O and biomass as the final remnant. A small proportion of the bag material is made from nylon to improve performance, which is not biodegradable.

The biodegradability of the Green-Paq material has been tested by the SP Technical Research Institute of Sweden ("SP") who performed SP Method SPCR 141 Appendix 4 "Polymeric Waste degradable by abiotic and subsequent biological degradation (A+ B Degradation)- Requirements and test Methods." SP concluded that the test material fulfils all the requirements of SPCR 141 appendix 4, which is in accordance with ASTM D6954.

**SINGLE BOTTLE PACK\***

Deflated dimensions 21cm x 41.5cm

**DOUBLE BOTTLE PACK\***

Deflated dimensions 48cm x 41.5cm

**TREBLE BOTTLE PACK\***

Deflated dimensions 72cm x 41.5cm

**SIX BOTTLE PACK\*\***

2 x Treble bottle bags

**TWELVE BOTTLE PACK\*\***

4 x Treble bottle bags

**SINGLE MAGNUM PACK\***

For large magnum bottles.  
Deflated dimensions 21cm x 43cm

**BEER SIX AND TWELVE PACKS\*\***

Deflated dimensions 65cm x 35cm

**75CL BOTTLE PACK\***

Deflated dimensions 30cm x 31cm

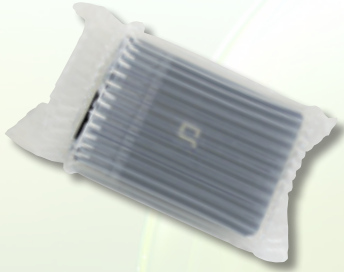

**HALF BOTTLE PACK\***

Deflated dimensions 24cm x 30.5cm

\*Supplied with corresponding outer box- single wall and double wall available

\*\*Supplied with corresponding outer box-double wall

Q Type bag, 3cm chambers, green nozzle. All laptop bags can be supplied with a bespoke outer box, which includes a separate partition for power cable and plug. Outer mailing bag also available.

**10" LAPTOP BAG**

Deflated dimensions 36cm x 33.5cm

**13" LAPTOP PACK**

Deflated dimensions 32.5cm x 39cm

**15" LAPTOP HANDLE PACK**

Deflated dimensions 48 x 48cm

**15" LAPTOP PIZZA PACK**

Deflated bag dimensions 48 x 48cm

**PC END CAPS PACK**

Sizes for; Towers and SFF

**IMAC PACK**

Sizes for; 19", 21" and 27"

**MACBOOK PACK**

(Bag & Box)

Deflated dimensions 18.5cm x 38cm

**19" MONITOR PACK**

**24" MONITOR PACK**

**LARGE PHONE PACK**

(Bag & Box)  
Deflated dimensions 14cm x 18cm

**CONSOLE BAG ▲**

(Bag & Box)  
Sizes available on request

**FABLET ROLL ▲**

Designed for 10" tablets, Inflate and tear.

**IPADS, TABLETS, HARD DRIVES AND DATA SWITCHES**

**iPAD/TABLET PACK**

Q type bag, 2cm chambers, green nozzle  
Deflated dimensions 21cm x 30.4cm

**HARD DRIVE BAG**

Q type bag, 2cm chambers, green nozzle  
Deflated dimensions 18cm x 21.4cm

**DATA SWITCH BAG ▲**

End cap type bag, 3cm chambers, green nozzle.  
Sizes available on request.

**TV CORNERS**

**CORNER BAGS\*\***

To fit most TV/Monitor corners.

\*\*4 corners required per TV.

# BESPOKE BAGS AND BOXES

**AirPack Systems can make you bespoke bags, and boxes made to fit any fragile items.**

- Simply tell us the object, dimensions, weight and send a picture if possible and we can design a bag and/or box to your requirements.
- Price and sample usually within 8 working days.
- 10-12 week lead time for bespoke bags from point of order.
- Custom made boxes
- Box printing available
- Minimum order quantities apply.

## AIR COMPRESSORS AND ROLL OF MATERIAL

### AIR COMPRESSORS

Our compressors are supplied with the pressure gauge already pre-set but recommended pressure for inflation is 15-20 PSI. Both compressors come with a foot pedal and nozzle attachment. They are very quiet units and inflate the bags in seconds.

**Small air compressor (3.5 litre tank)**

Dimensions 37cm x 13.5cm x 31.5cm

**Large air compressor (6 litre tank)**

Dimensions 55cm x 20.5cm x 51cm

### ROLL OF MATERIAL ▲

- Supplied on a 330 metre roll
- Choose from a width of 60cm-120cm
- Option of 2cm, 3cm, 4cm, 5cm or 6cm chambers.
- Simply cut to desired length.

### FRAGILETAPE

▲ DENOTES NON STOCK ITEMS.

**MUG BAGS ▲**

Deflated dimensions 28cm x 21.5cm

**SMALL PLATE BAGS ▲**

Deflated dimensions 36cm x 33.5cm

**LARGE PLATE BAG ▲**

Deflated dimensions 39cm x 39.5cm

**COSMETICS, PERFUME, CANDLES,  
BEAUTY PRODUCTS AND TONER CARTRIDGES **

**COSMETICS, PERFUME,  
CANDLES AND BEAUTY  
PRODUCTS**

Q Type bag, 3cm chambers,  
green nozzle.

Deflated dimensions 21cm x 30.4cm

**TONER CARTRIDGES -  
CLEAR BAGS**

(\*BLACK BAGS AVAILABLE)

Q type bag, 3cm chambers, no nozzle.

TB 1 deflated dimensions 21cm x 39.5cm\*

TB 2 deflated dimensions 24cm x 37.5cm\*

TB 3 deflated dimensions 30cm x 39cm\*

TB 4 deflated dimensions 33cm x 43.5cm\*

TB 5 deflated dimensions 42cm x 46cm
